

POTENSAC

2023

SITE

Potensac is a 61-hectare vineyard located in the commune of Ordonnac, between ocean and estuary. One of the highest points in the Northern Médoc, it is characterized by brisk winds and wild nature. Historic plots of Cabernet Sauvignon, Merlot and Cabernet Franc date back to the 1920s and 1930s.

SOILS

Potensac lies on two contrasting slopes – clay over limestone and clay over gravel. With its cool, oceanic climate and well-draining soils, the vineyard echoes parts of the Saint-Estèphe appellation. Distinguished by its elevation, this ‘terre d’avenir’ balances richness with vibrancy in even the warmest vintages.

Blend

48% Cabernet Sauvignon,
35% Merlot,
17% Cabernet Franc

Alcohol degree

13,50 ABV

Total acidity

3,50 gH₂SO₄/l
