Château Suduiraut, Vieilles Vignes, Grand Vin Blanc Sec, 2025

AOC Bordeaux, Bordeaux, France

Château Suduiraut Vieilles Vignes Grand Vin Blanc Sec is made from our prestigious Premier Cru Classé terroir of Sauternes.
This wine is produced from a specific selection of Semillon and Sauvignon Blanc plots, with vines on average 45 years old, specifically identified to reveal the elegance and concentration of these two grape varieties. It perfectly reflects the strength of our terroir.

THE VINTAGE

WEATHER CONDITIONS

- A generally mild and dry winter 2024-2025, with rainfall down 45% compared to the previous year.
- Relatively early budburst around 25th March, under good conditions.
- A wetter spring required vigilance against the risk of mildew.
- Flowering around 3rd June in stable and favourable conditions.
- A climate marked by persistent heat, temperature peaks at the end of June, and rainfall down 30%, leading to the onset of water stress and small berry size.
- Veraison began around 26th July for Sauvignon and 28th July for Semillon.
- Late July early August: several welcome thunderstorms, accompanied by cooler and cloudier conditions, were beneficial for grape development and preserving the acidity of the musts.

HARVEST

Harvest took place from August 19 to 27. It began with the oldest parcels of Sauvignon Blanc and Semillon (August 19–20), continued on August 22 with two additional plots, and concluded on August 27 with a later-ripening lot of Semillon. The vintage stood out for its excellent quality, combining power, length, and balance.

WINEMAKING

- Gentle and long pneumatic pressing: around 2.5 hours.
- Cold settling at 10°C.
- Fermentation in barrels with 14% of new oak, at a controlled temperature of 17 to 22°C.
- No malolactic fermentation.

THE WINE

BLEND

Sémillon 66%, Sauvignon blanc 34%

AGEING

14% in new barrels, 86% from barrels of one vintage for 9 months.
Stirring of the fine lees at a variable rate depending on the vintage, on average once a week or every 2 weeks.
